

BEDFORD KICKING MULES

BASKETBALL

WELCOME TO THE 2007-2008 BEDFORD BASKETBALL SEASON

Over the past fifty years the basketball program at Bedford High School has produced only five district championships. The program has had some competitive teams, but has never won a league title. I believe it is safe to say that the program falls significantly short of being considered a basketball dynasty.

As the Varsity Coach, Parent, and Community Member, my goal is to make Bedford Basketball something everyone in our entire community can be proud of. We have the student athletes, the facilities, and the willingness of our community to make Bedford a contender in the league and the state year after year.

As my staff and I sat down to consider how we could reach our goal, we realized that there is no feeder system into the High School basketball program. We decided that we needed to develop a competitive youth program that will serve as the foundation for consistent championship-level teams in the future.

With that in mind, be on the lookout for some of the new youth programs being implemented:

- **Bedford Youth Travel Teams** – third through eighth graders participating in local tournaments throughout the winter months
- **Basketball Clinics** – intensive shooting and fundamentals clinics run in the fall and winter
- **Summer Basketball League** – intense three-week league, where players will compete against other kids in their age group and ability levels
- **Summer Basketball Camp** – three day camp intended to provide a high level of instruction
- **Exhibition Games** – Varsity halftime will showcase some of our youth travel teams
- **Two 7th and two 8th Grade Teams** – Increase participation at Junior High level

Not everything is geared toward the youth basketball players. One of our major efforts this winter involves a complete refurbishment of the Varsity Basketball locker room. The new locker room will feature custom-built solid wood individual lockers, fresh paint, a built-in entertainment center for a television and stereo, a refrigerator, and a new floor.

Also, starting next summer all high school teams will be participating in a full schedule of tournaments / team camps / leagues. This is a critical piece to ensure that the players are learning to play basketball at a much higher level under the guidance of the coaching staff.

I am confident that we can make the basketball program at Bedford into a state contender, but it will take time and help from a lot of people to make it happen. Please consider being a part of the building process by volunteering to coach, by helping raise funds, and by supporting our current teams by bringing your kids to the games and raising their awareness. Together we can make the basketball future at Bedford an exciting one.

RE: MRSA – (Methicillin-Resistant Staphylococcus Aureus)

You may be aware that there has been an alarming increase of MRSA, a serious communicable infection, in several public schools in the area. We are implementing the following policies for the safety of your child.

- Players must shower with soap at the conclusion of each practice and game
- Each player must provide his own towel (red or white with his name written on it in permanent ink) for all practices and games
- Players must take home and wash their practice gear daily
- Players will not be permitted to leave the gym without a coat and hat

We will strictly adhere to these policies. We apologize for any inconvenience, but our goal is to protect the health of your child.

Thank You,

Coach German and Staff
